

# WHO AM I?

My name is Moussu and my surname is Dylan. I have fifteen years old. I was born in 1994. My prefer subject is M P I because we make electrical cablings. It's technical and that's why I chose Lemonnier Institut. My hobbies are basketball and go hunting. I live in Crouttes near Vimoutiers. I go to school by car with my parents. Also I'm a boarder. I like practising sports during Wednesday's afternoons. I really like my school because it makes me independent of my family. I must manage by myself. I met new friends. I have good relationships with my Schoolfriends. I feel good in that technical high school. And it is important when you are far from your parents!
