

***Dear Ms.
Kristel Kook-Aljas***
Estonia Coordinator

On 14th of October in Poland we traditionally celebrate National Education Day also known as the Teacher's Day. It is celebrated to honour one of the most respectable professions of teaching and appreciate teachers all over the world.

Teacher's Day has always been an important day to value the teachers and to thank for their invaluable support and assistance in making students life worthwhile. Teachers have been the light bearers to the students since ages. Teacher's Day pays tribute to the teachers who have been very much responsible in making a child educated and responsible person. They teach the true meaning of life as well as how to lead life in the right way and make progress.

Dear teachers from Estonia, I want to express my appreciation for the dedication and passion with which you are doing your work and wish you perseverance in fulfilling everyday educational mission. Please accept the best wishes of success in professional and personal life.

Sincerely,

Mayor of the municipality of Morawica

mgr inż. Marian Buras

Morawica, 14th October, 2014
