

Pininfarina
Istituto Tecnico Industriale Statale

On 7th May 2014, at ITIS Pininfarina, our students of the 4th and 5th grade participated in an important conference whose title was: " Autonomous or hired? The job that can be invented: two points of view on how to find a job", a conference being part of a wider programme called "I love IT, 100% Italian Style, from Moncalieri to Stockholm". At the presence of Moncalieri's Mayor, Ms R. Meo, and the Council members for Youth and Work Politics, the students were reported their experiences by managers and entrepreneurs, in particular from the automotive and Robotics sectors, receiving knowledge, suggestions, instructions for their future
