Why is this film connected with our Comenius Project ?

It was about the humans who are destroying the forest. Today humans destroy nature more and more and thus destroy life.

What is the main idea of this film ? Do trees have a symbolic role in it, a realistic one, both ?

People want to rule/exploit nature

You liked :	You didn't like :	You were surprised by :
I liked the white cute creatures. I liked it because there is a true story behind the movie.	I don't liked that you can see the killed or being killed persons.	I was surprised that the movie is allowed for 12 year olds.
